

Call Rota is unique to Windsor Telecom and allows you to schedule where you'd like calls to your Windsor number(s) to divert to at multiple times throughout the day, 7 days a week.

Call Rota is perfect if you need your calls to be answered at different locations on a daily basis because you can easily pre-set where your calls go in advance. This is ideal if you have homeworkers, volunteers or sales people based in different places.

The main reason Call Rota is so popular is because it's user-friendly. It's laid out in an easy-to-use timetable and you simply enter up to 5 landline/mobile numbers of where you'd like your calls to go at each of your chosen time periods. Your calls will then be sent to each location automatically when someone dials your 08 or 03 non-geographic number(s).

### Call Rota - At a Glance

- » Schedule where calls to your Windsor number(s) go at multiple times and days during the week.
- » Ideal if you have homeworkers, volunteers or sales people based in different places.
- » Save time – you won't need to worry about manually diverting calls several times a day, 7 days a week.
- » Be safe in the knowledge that calls will always be answered by the right person, in the right place at the right time.

### The Call Rota Timetable

Simply enter your desired number(s) in the appropriate time-frame and calls to your Windsor number will be diverted there.
